ATLAS OF WORLD CULTURES ***George Peter Murdock*** *$10.95*
In this complete revision of the ETHNOGRAPHIC ATLAS, Professor Murdock presents data on 563 societies and offers some conclusions regarding the distribution of cultural phenomena throughout the world. It describes a simple method for choosing a valid sample of the world's known societies for cross-cultural research. An indispensable research tool for comparativists in anthropology, history, political science, psychology, and sociology.

RECENT TITLES OF INTEREST

THEORIES OF ILLNESS ***George Peter Murdock*** *$9.95*
Murdock defines the principal causes of illness that are reported throughout the world and then assesses the incidence and relative importance of each theory among 139 representative societies with widely disparate levels of culture. "Any academician who is working on cross-cultural analysis on health and illness must have this work; any serious librarian who is developing a medical anthropology reference section also needs to acquire it."—*Choice*

CROSS-CULTURAL SAMPLES AND CODES *$21.95 cloth; $9.95 paper*
Herbert Barry III and Alice Schlegel, Editors
This book collects the cross-cultural codes developed by the Cross-Cultural Cumulative Coding Center at the University of Pittsburgh.

University of Pittsburgh Press Pittsburgh, PA 15260
